Abstract deadline:

December 28, 2014

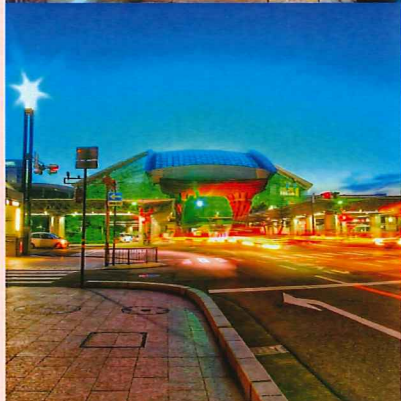

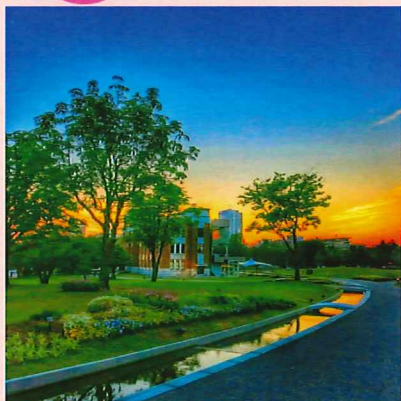

Notification of abstract

Acceptance

January 31, 2015

Early bird registration:

March 31, 2015

On behalf of the Organizing Committee, we are pleased to invite you to join us in the beautiful city of Kanazawa, Japan for the 9th Asian Aerosol Conference to be held at the Kanazawa Tokyu Hotel from 24-27 June 2015.

The conference will provide delegates with a valuable opportunity to learn about new discoveries and problems, exchange views, and develop plans for the future of aerosol science and technology. The conference will explore a wide range of topics related to aerosol science. These topics will encompass the physical and chemical characteristics of aerosols and their impact on the environment and society in diverse areas such as climate, air quality, health, energy, and materials. We are working hard to reach the right balance between learning, socializing and networking. We hope to offer you a strong academic program, professional exhibitors and trade displays and an environment for you to network with like-minded colleagues. The conference has been designed to facilitate the interchange of ideas between speakers, delegates, sponsors and exhibitors alike.

Registrations will be opening in January 2015. If your company would like to be part of this conference from a sponsorship perspective, there are various packages on offer to suit all sponsorship goals. We would appeal to you to lodge your enquiry as early as possible to secure a package, please visit our sponsorship page for further information.

We look forward to seeing you in Kanazawa.

Prof. Yoshio Otani
School of Natural System, Kanazawa University
On behalf of the Asian Aerosol Research Assembly
