

故正野教授記念論文集購入募集

故正野教授を記念し、気象学会の特別事業として、論文集を発刊することになりました。下記により、購入方至急お申し込み下さい。

記

1. 締切 4月20日

春季大会(5月)の予算とも関連がありますので、なるべく早目にお申し込み下さい。

2. 申込先 東京都千代田区大手町 1-3-4

気象庁内 日本気象学会事務局

3. 代金 3,000円(暫定価格, 多少の変動あるかもしれない) 支払は、発刊後(9月の予定) 直ちに

4. 執筆者および暫定題目

山本 武夫

On the Northward Shift of the Climatic Zone in the Far East.

和田 英夫, 北原 英一

Proposed Classification Characterizing Tropospheric Circulation over the Northern Hemisphere.

小野 晃

Some Aspects of the Ice Phase Development in Relatively Warm Supercooled Maritime Cumulus Clouds with Special Attention to Small Regular Ice Crystals.

中川 好成

A Numerical Study of Hydromagnetics of the Solar Cycle.

北川信一郎

On Necessary Requirements for Charging Mechanism of Thunderclouds.

日高 孝次

A Contribution to the Three-dimensional Computation of Ocean Current in Presence of Both Vertical and Horizontal Mixing.

佐々木嘉和

On the Variational Analysis and Prediction Method.

村上多喜雄

Large-scale Equatorial Waves in a Dry Atmosphere.

毛利圭太郎

Analysis of the Anticyclone which passed over North Japan around Early Summer.

新田 尚

Response of a Dynamic Model to Artificially Modified Initial Fields.

井上 栄一

Uncertainty and Predictability in the Numerical Weather Prediction.

松本 誠一, 二宮 洸三

In the Fine Structure of Medium Scale Disturbance Embedded in the "Bain Front"

増田 善信

Numerical Prediction by the Non-geostrophic Balance Model.

関口 理郎

The Accuracy of Upper Air Temperature Measurement by the Japanese Radiosonde.

山岬 正紀

Barotropic Unstable Waves in the Equatorial Easterlies.

丸山 健人

Equatorial Waves Observed during the Line Islands Experiment 1967.

菊池 幸雄

On the Influence of the Orography and the Land-sea Distribution on Blocking Actions.

栗原 宜夫

Seasonal Variation of Temperature in an Atmosphere at Rest.

藤田 哲也

Application of ATS III Photographs for Determination of Dust and Cloud Velocities over Tropical Atlantic Ocean.

伊藤 宏, 磯野 良徳

Hemispheric Forecast with Primitive Equation Model.

関岡 満

Some Aspects of Extratropical Transformation of Typhoon.

浅井 冨雄

1. Further Studies of the Characteristics of Cellular Cumulus Convection.

2. Thermal Instability of a Shear Flow Turning the Direction with Height.

笠原 彰

The Balance of Momentum Water Vapor and Energy of the Global Atmosphere for 15-19

January 1958.

山本 義一

Secular Variation of Atmospheric Turbidity over Japan.

George W. Platzman

The Generation of Edge Waves by a Squall Line.

相原 正彦

Instability of Planetary Waves in a Zonal Current.

片山 昭

Parameterization of Radiative Processes in the Troposphere.

飯田陸次郎

A Case Study on the Formation of Tropical Disturbances in the Lower Troposphere.

曲田 光夫

On the Computational Errors in the Numerical Experiment.

吉野 正敏

A Comparison of Synoptic Climatological Situation of Local Strong Northerly Winds in the Northern Hemisphere.

吉武 素二

An Approximate Solution of the Laminar Boundary-Layer Equation for a Flat Plate.

都田 菊郎

Extended Prediction with a Nine-Level Global Model on the Kurihara-grid.

H.L. Kuo On the Vortex Motion.

Arnt Eliassen, W.G. Swinbank, 廣田 勇,

松野 太郎, 小倉 義光, 竹内 清秀, (題目未定).

故正野教授記念論文集発刊準備委員

窪田 正八, 岸保勘三郎, 関口 理郎, 須田 建,

河村 武,
