

日本気象学会英文レター誌 SOLA  
 (Scientific Online Letters on the Atmosphere)  
<http://www.jstage.jst.go.jp/browse/sola/>

第6巻 2010年5月 目次

|   |       |
|---|-------|
| Fumiaki FUJIBE and Koji ISHIHARA : Possible Urban Bias in Gridded Climate Temperature Data over the Japan Area .....  | 61-64 |
| Wai-kin WONG, Santi SUMDIN and Edwin ST LAI : Development of Air-Sea Bulk Transfer Coefficients and Roughness Lengths in JMA Non-hydrostatic Model and Application in Prediction of an Intense Tropical Cyclone ..... | 65-68 |
| Tomohiro NAGAI, Ben LILEY, Tetsu SAKAI, Takashi SHIBATA and Osamu UCHINO : Post-Pinatubo Evolution and Subsequent Trend of the Stratospheric Aerosol Layer Observed by Mid-Latitude Lidars in Both Hemispheres .....  | 69-72 |
| Hiroyuki MURAKAMI and Masato SUGI : Effect of Model Resolution on Tropical Cyclone Climate Projections .....  | 73-76 |
| Naoko KITABATAKE : Impact of Synthetic Wind Retrieval on Tropical Cyclone Structures at the Extratropical Transition Stage in the JRA-25 Reanalysis .....   | 77-80 |

第6A巻 2010年5月 目次

Special Edition of the Fourth Japan China Korea Joint Conference on Meteorology

|  |       |
|--|-------|
| Hiroshi OHNO and Tetsuya TAKEMI : Numerical Study for the Effects of Mean Wind on the Intensity and Evolution of Dust Devils ..... | 5-8   |
| Su-Bin OH, Do-Woo KIM, Ki-Seon CHOI and Hi-Ryong BYUN : Introduction of East Asian Drought Monitoring System .....                 | 9-12  |
| Akiyoshi WADA, Nadao KOHNO and Yoshimi KAWAI : Impact of Wave-Ocean Interaction on Typhoon Hai-Tang in 2005 .....                  | 13-16 |
