第7巻 2011年12月 目次

Faramarz MADJIDI, Abas Ali BIDOKHTI, Sarmad GHADER and Nabyolah MANSORI: A Numerical Model for the Study of Thermal Effect of Grass-Covered Parks in a Humid Urban Area	185-188
Nurjanna J. TRILAKSONO, Shigenori OTSUKA, Shigeo YODEN, Kazuo SAITO and Syugo HAYASHI: Dependence of Model-Simulated Heavy Rainfall on the Horizontal Resolution during the Jakarta Flood Event in January-February 2007	193-196
Kunihiko KODERA, Hitoshi MUKOUGAWA and Yuhji KURODA: A General Circulation Model Study of the Impact of a Stratospheric Sudden Warming Event on Tropical Convection	197-200
Chiharu TAKAHASHI, Naoki SATO, Ayako SEIKI, Kunio YONEYAMA and Ryuichi SHIROOKA: Projected Future Change of MJO and its Extratropical Teleconnection in East Asia during the Northern Winter Simulated in IPCC AR4 Models	201-204
Shinji MATSUMURA and Tomonori SATO: Snow/Ice and Cloud Responses to Future Climate Change around Hokkaido	205-208
